

We put a  
telltale  
smell in  
natural gas...

... and we want  
you to know it  
*scratch & sniff* →

HEATING AND COOLING  
WATER HEATING COOKING DRYING

Let everyone in your home sniff it.

Natural gas is odorless. We add a distinctive odor to natural gas for your safety. Some say it smells like rotten eggs. Find out by scratching and sniffing the front of this card. Please share this card with others in your household.

If you ever smell natural gas, don't wait. Follow these safety steps:

- Evacuate the area immediately.
- Do not touch anything electrical (light switch, garage door opener, etc.).
- Call MGE immediately from a safe distance.  
We're available 24/7.
