

INSTRUCTIONS

SUBMIT THIS FORM DIRECTLY TO YOUR ELECTRIC PROVIDER

Notice: This form must be completed and submitted with fees to meet Wisconsin Admin. Code PSC 119.04 (2). Personal information collected will be used for administrative purposes only.

This application form is for interconnection to the electric distribution system of distributed generation systems sized up to 15 megawatts (MW) alternating current (AC) and associated equipment in compliance with Wisconsin Administrative Code Chapter PSC 119. For distributed generation systems that are DC rated, if applicable, please use the conversion factor provided by your utility to determine the AC nameplate rating of the system.

If a distributed generation system already has an interconnection agreement but has simply changed ownership, do not fill out this form. Fill out Form, "Change of Ownership Form for Distributed Generation Equipment." If this generation system is planned in conjunction with construction of a new building, provide the current owner/builder's information as the Applicant, and have the new home/building purchaser fill out a "Change of Ownership" Form upon completion of sale.

This form is for generation systems that will operate in parallel with the distribution grid. *If the system you are considering will operate only in isolation from the electric distribution grid, you do not need to fill out this form.*
